Roslindale, Massachusetts

Edward J. Foley
HEADMASTER'S MESSAGE

Your high school graduation represents the accomplishment of a major accomplishment in your life. For some it is the end of formal education. For most is means the beginning of further education. In any case, it represents the beginning process of a long educational adventure. All of you will continue to learn and further yourself through experience and by continually being alert to the contributions of others, and by making your own contribution to a complex system.

Whatever your path, you are entering a world where you are expected to stand on your own feet. This great change in your life comes at a time when the world is in an unsettled condition, when ethical standards are confused, and dishonesty and disloyalty appear even in the highest places. It is thus extremely important to you to revalue, to demonstrate what an American — a "tech" education means and stands for. You must continue in the American tradition of honesty, decency, and loyalty to your country, your community, and yourself.

Guided by the finer things, make certain that your ambitions remain within the framework of the eternally right.

I wish you a well-deserved success, a happy future, and remind you that "Tech" is always ready and willing to help.

Seniors vs. faculty

Seniors Victorious (Score Withheld)
